**CENTREX**  
**General Information**

**BE SURE OF THE NUMBER.** If you do not find it in this directory, dial "O" for the CENTREX Operator and ask the attendant for it.

**LISTEN FOR DIAL TONE.** Do not start to dial until you hear this tone.

**TO CALL HELENA CENTREX NUMBERS,** dial the four digit extension number.

**TO MAKE AN OUTSIDE CALL.** Remove the receiver and when you hear dial tone, dial the digit "9". Then dial the telephone number.

**INCOMING CALLS TO EXTENSIONS.** 449-2511 is the official number for incoming calls to the State of Montana, both local and long distance, where the extension number is not known. 449-xxxx (the extension number) is to be used for incoming calls to a known extension number, both for local and long distance.

**TO TRANSFER AN INCOMING CALL.** Operate the receiver hook once. The attendant will come in on the line and ask for the number to which you wish it transferred.

**CONFERENCE CALLS.** Dial 2607 and give the CENTREX attendant the details of the conference call. The conference equipment permits the CENTREX attendant to establish a conference connection of up to five conferees. No more than two network lines or one local Helena area number and one network line may be included in the conference connection at any one time.

**TO CALL LONG DISTANCE**

To Montana Exchanges. Use the State Telecommunications Network.

To Out-of-State Points

DDD (Station to Station) Calls—dial "9" then "1" followed by the three digit area code and the seven digit number of the party you are calling (9-1-612-555-2368).

Operator Handled Calls—dial "9" then "0" and give the details of your call to the Operator. Calls will be completed faster if you can provide the Operator with the code for the area you are calling. For example, place your call as follows:

Calling Saint Paul, Minnesota  
Area Code 612  
John Jones  
This is 449-xxxx (extension number)

**TO REACH INFORMATION**

State Capitol—dial "O" for the CENTREX attendant.

Local—dial "9" then 411

Other offices in Montana (DDD)—dial "9" then "1" followed by 555-1212 and ask Operator for distant city information.

Out of state (DDD)—dial "9" then "1" followed by the three digit area code of the area you are trying to reach then 555-1212.

Ask the Operator for the distant city information.

**TO REPORT A TELEPHONE OUT OF SERVICE,** dial "0" for the CENTREX attendant.

**STATE TELECOMMUNICATIONS SYSTEM**

The State Telecommunications System (STS) places the State Government, Statewide, at your fingertips. This system helps us serve the public by assisting us in obtaining information, solving problems, speeding answers and meeting deadlines. When we use the system correctly everyone benefits.

Most of the information you will need to use the STS is contained in this directory. By reading it carefully, following the directions and always writing down the numbers before calling, you will help others and yourself receive the full assistance the STS can provide.

It is important to remember that the STS is not a free service. The charges your agency pays depends upon the number of calls the system carries; in other words, if calls increase, the charges will increase accordingly. Therefore, indiscriminate use of the system can result in increased costs to your agency and to the State Government.

# STATE TELECOMMUNICATIONS SYSTEM

## Calling Guide

The following is an alphabetical list of cities and towns in Montana and dialing procedures used in reaching these locations. In addition, all state agency telephone numbers are listed for quick reference. It is imperative the following dialing procedures be used in calling throughout Montana. Improper use of the state telecommunications system will detract from the speed, ease and economics for which the system was designed.
